

Opening New Arizona Markets Through Expanded Dark Fiber

eX² Technology, in partnership with Arizona Public Service (APS), is expanding access to available dark fiber throughout many regions in Arizona. As APS's dark fiber commercialization partner, eX² is marketing this infrastructure on an open-access, vendor-neutral basis. With numerous access points along the APS fiber route, the dark fiber network will serve to open up new markets for carriers and service providers seeking to expand their reach throughout APS's expansive service territory.

APS's secure, 2,700-mile fiber optic, open-access network backbone links to Phoenix, Scottsdale, Flagstaff, Yuma and beyond, providing a wealth of opportunity to connect to more than 5.4 million people as well as schools, businesses, medical facilities and more. For a detailed route map, rates, terms and conditions or to discuss connection opportunities, please contact us today!

APS is the largest and longest-serving electric utility in the state of Arizona. APS serves more than 1.3 million homes and businesses in 11 of Arizona's 15 counties, and is a leader in delivering affordable, clean and reliable energy in the Southwest.

HOW CAN YOUR COMPANY BENEFIT?

Connection to a secure, open-access right of way that links to Flagstaff, Phoenix, Scottsdale, Yuma and more

Accelerated speed to market for faster return on investment

Minimized permitting & regulatory processes

Reduced operational costs with shared maintenance & relocation expenses

Ability to add customized access points, colocation or network connectivity
